Note: While the figures of dog adoptions still appear low, in a city like Vizag, where attitudes are still conservative and people are still unable to accept shifts from convention, 33 is a visible improvement from the last year where figures were close to nil. Also, given the cost of maintaining a dog or cat in the shelter, knowing that a healthy animal is residing safely in a home is a relief for us. We are working on a brochure and a more forceful programme to encourage people to adopt dogs instead of buying them from breeders.
