BACK GROUND:

In April 2009 Mr.N.Sanjay's Inspector phoned me to mention his and his two children's interest in visiting our shelter. How was the Superintendent of Police of IPS Cadre from Anantapur interested in visiting our shelter? I found out that it was actually his children who were in touch with us through our Website enquiries about our activities regarding Animal Welfare work!

I met them at the shelter and had a very pleasant interaction with the children who readily adopted a horse and monkey. A horse named Vanessa and monkey named Anjali under our adoption scheme.

During the course of interaction I took the opportunity to request Mr. Sanjay towards conducting Awareness cum Education program at their Police Training Camp at Ananthapur using his good offices as the Principal of the Centre and his interest into Animal Welfare.

I would at this juncture narrate a small reason on to what led Mr. Sanjay deeply into Animal welfare. While he was the DSP in Hyderabad he was forced to take defensive measures against a Leopard straying into a school premises. Which lead to the unfortunate death of the Leopard. More than anything else that could disturb him was the strict opposition from his children in taking out such a decision to solve the crisis. Since then Mr.Sanjay has been led by his children's psychological impact regarding Animal behaviour.

They say that out of every crisis goodness appears and Mr.Sanjay's posting as Principal subsequently to the Training Centre at Ananthapur has been indeed a distinct advantage for embedding Animal Welfare in to their training curriculum.

Upon many deliberations and discussions the period 5th July to 9th July' 2009 was thought to be the best to conduct the Education campaign at eight centers in four Districts.

2. Protection of all kind of species and plants also.
3. Illegal slaughtering and transportation of cattle.

PLEDGING:

At all the centers volunteer pledge was undertaken by the cadets to do their best possible under any circumstances to help to animals in distress and also try all possibilities to become a vegetarian.

CONCLUSIVE REMARKS:

This has been the first major attempt by the VSPCA in terms of doing something worthwhile in any sector to push the concept of Animal Welfare.

We were concentrating and thinking and planning to implement amongst Schools, Colleges, Project related communities and the Public. Never had we imagined about going to these Police Centers for conducting the Education campaigns.

Therefore, we have been blessed with this opportunity to forward our experience and knowledge to the field first ranked people personnel.. We felt the need to approach this basic area of police because most of the time they are the ones who are sent to the site of the crime and more often they are the ones to handle the situation. Hence, our interest has been to enter into the right direction and move upwards gradually and slowly to create impact upon the implementing Authorities for solving Animal problems.

As you are all aware that the Police, the Wild life and Advocates constitute a team for completion meant for animal rescues involving risky situations. Our aim is to conduct such frequent camps and have a comprehensive network throughout our State and improve with every step and every camp in providing a better structure to educate them.
